

## The Implementation of AIRDO's International Charter Flights

AIRDO Co., Ltd. (hereinafter referred to as AIRDO) hereby announces that the time schedule (proposal) of our second international charter flight that we informed on September 30<sup>th</sup> was finalized.

This flight is planned to be operated between Eastern Hokkaido (Memanbetsu / Kushiro) and Taiwan (Kaohsiung) and expected to boost tourism in Eastern Hokkaido. Also, this flight is advantageous to our customers from Eastern Hokkaido as they can travel overseas directly from their nearby airports (Memanbetsu and Kushiro). In addition, the flight will serve to allow our customers from Taiwan to fully enjoy the superb and beautiful nature and delicious food that are unique to (Eastern) Hokkaido, ultimately helping to increase the percentage of repeat visitors.

AIRDO is intending to serve as the wings of Hokkaido and continue to plan further charter flights that connect Hokkaido and overseas destinations. Please take this opportunity to travel on our international charter flight.
