As the "Wings of Hokkaido," AIRDO has provided service in the past from all over Hokkaido (New Chitose Airport, Memanbetsu Airport, and Kushiro Airport) to Taiwan (Taipei and Kaohsiung) in the form of international charter flights, and now, for the first time, will be offering international charter flight service to/from Tokachi-Obihiro Airport.

The airport acts as a gateway to areas of eastern Hokkaido such as the Tokachi-Obihiro area, and through international charter flights to and from the airport, we are able to offer even more convenience to passengers in Hokkaido as well as offer Taiwanese passengers a direct route to experiencing the allure of winter in eastern Hokkaido with Tokachi as their starting point. We also trust that this will contribute to Taiwan's growing demand for sightseeing in Hokkaido.

The charter flights from Obihiro are a travel service conceived and realized by travel company JTB Corp. In addition to the service being available from JTB Corp.'s Obihiro Office, part of its Hokkaido Division, ten member companies of the Tokachi-Obihiro Airport Promotional Agents Liaison Council also offer the service on JTB's behalf. Charter flight travel service from Taipei will be made available for purchase through exclusive local travel agents there.

Don't miss this chance to fly aboard an international AIRDO charter flight.
